

## Keyboard Shortcuts That'll Increase Your Efficiency in Inventor

One of the easiest ways you can design faster is by using Inventor shortcuts. With these shortcuts, you'll be able to launch commands quickly instead of wasting your valuable time searching for them in the toolbar. Print this cheat sheet or save it to your desktop for easy access while you commit the Inventor shortcuts to memory.

### SKETCH SHORTCUTS

=	Constrains curves to equal radius or length
F7	Slice graphics
F8	Show all constraints
F9	Hide all constraints
Ctrl + R	Ortho mode
